

## Explanations of the hazard statements

### H200 series: Hazard statements for physical hazards

H220	Extremely flammable gas.
H222	Extremely flammable aerosol.
H225	Highly flammable liquid and vapour.
H226	Flammable liquid and vapour.
H229	Pressurised container: may burst if heated.
H280	Contains gas under pressure; may explode if heated.
H290	May be corrosive to metals.

### H300 series: Hazard statements for health hazards

H301	Toxic if swallowed.
H301+H312	Toxic if swallowed. Harmful in contact with skin.
H302	Harmful if swallowed.
H302+H332	Harmful if swallowed or inhaled.
H304	May be fatal if swallowed and enters airways.
H311	Toxic in contact with skin.
H312	Harmful in contact with skin.
H312+H332	Harmful in contact with skin or if inhaled.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H331	Toxic if inhaled.
H332	Harmful if inhaled.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H335	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H351	Suspected of causing cancer.
H360	May damage fertility or the unborn child.
H361d	Suspected of damaging the unborn child.
H362	May cause harm to breast-fed children.
H370	Causes damage to organs.
H372	Causes damage to organs through prolonged or repeated exposure.
H373	May cause damage to organs through prolonged or repeated exposure.
H360D	May harm the child in the womb.
H361f	Suspected of damaging fertility.

### H400 series: Hazard statements for environmental hazards

H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
H411	Toxic to aquatic life, with long lasting effects.
H412	Harmful to aquatic life with long lasting effects.

### Supplemental hazard features / labelling elements

EUH031	Contact with acids liberates toxic gas.
EUH066	Repeated exposure may cause skin dryness or cracking.
EUH202	Cyanacrylat. Danger. Bonds skin and eyes in seconds. Keep out of the reach of children.
EUH204	Contains isocyanates. May produce an allergic reaction.
EUH205	Contains epoxy constituents. May produce an allergic reaction.
EUH206	Warning! Do not use together with other products. May release dangerous gases (chlorine).
EUH208	May produce an allergic reaction.
EUH210	Safety data sheet available on request.

**MOVERA**

## Hazardous substance labelling

For products labelled with hazardous substances, observe the application instructions and the safety data sheet.

Notes on signal words

### Danger:

Signal word for the serious hazard categories

### Attention:

Signal word for the less serious hazard categories

**GHS01**  
Explosive

**GHS06**  
Acute toxicity

**GHS02**  
Flammable

**GHS07**  
Harmful

**GHS03**  
Oxidising

**GHS08**  
Health hazard

**GHS04**  
Compressed gas

**GHS09**  
Environmental hazard

**GHS05**  
Corrosive

## Fire extinguisher classes

**A** Solid substances, non-melting substances  
Examples: Wood, paper, coal, textiles, etc.

**B** Liquid or liquefying substances/plastics  
Examples: Petrol, alcohol, tar, wax, many plastics, varnishes, resin

**C** Gaseous substances  
Examples: Hydrogen, natural gas, methane, propane, butane, town gas

**F** Fires involving cooking oils/fats (vegetable or animal oils and fats) in deep-frying and fat-baking equipment and other kitchen equipment and utensils.

## Environment & Disposal

### Disposing of used electrical appliances

The "crossed out dustbin" icon means: Electrical and electronic equipment must not be disposed of with household waste. You can hand in your old electrical appliances free of charge at local authorities' waste disposal collection points or at the collection points set up by manufacturers or distributors within the scope of the German Electrical Equipment Act.

An online directory of the collection and disposal points can be found here: <https://www.ear-system.de/ear-verzeichnis/sammel-und-ruecknahmestellen.jsf>.

Movera GmbH is a member of the "take-e-back" take-back system. Further information can be found at [www.take-e-back.de](http://www.take-e-back.de).

Please note: The acceptance of old appliances may be rejected if there is a risk to human health and safety due to contamination. You are responsible for the deletion of personal data. Used batteries and used accumulators (see also "Battery disposal") that are not enclosed in an old appliance are to be separated from the appliance prior to being disposed of at the collection point.

### Battery disposal

You may have bought an item which includes rechargeable or non-rechargeable batteries. For this reason, we are legally obliged to inform you of the following: Rechargeable and non-rechargeable batteries must not be disposed of with household waste. You are legally obliged to take used batteries to an appropriate collection point. You can deposit your used batteries at public collection points in your community or wherever batteries of that type are sold. You can also return your batteries by free shipment. If you want to make use of this option, send your old batteries marked "used" to the following address:

Movera GmbH, Holzstraße 21, 88339 Bad Waldsee, Germany

Used batteries contain valuable raw materials which can be reused.

**The crossed out dustbin means: Batteries and rechargeable batteries must not be disposed of in household waste.**

**The signs under the dustbins stand for:**

**Pb:** Battery contains more than 0.004 percent lead by mass  
**Cd:** Battery contains more than 0.002 percent cadmium by mass  
**Hg:** Battery contains more than 0.0005 percent mercury by mass
